

# ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

---

**Date/Time:** May 14, 2002

**Site Contact(s):** Mike Bemski  
**Phone:** 303-966-4090

**Regulatory Contact:** Elizabeth Pottorff, Carl Spreng  
**Phone:** 303-692-3429 303-692-3358

**Agency:** CDPHE

---

**Purpose of Contact:** Approval to backfill of excavations where foundation footers were removed at the 889 Project

---

## Discussion

Foundation footers at the 889 Project extended into the soil to an approximate depth of four feet. These footers are being removed entirely and following surveying by Radiological Operations and approval from Radiological Engineering, the footers are being shipped to the Front Range Landfill as sanitary waste. Additionally, a visual inspection is made of both the concrete and the soil for indications of contamination.

Approval was sought from CDPHE to backfill the excavations associated with the removal of the foundation. Elizabeth Pottorff did a walkdown of the 889 Project and agreed to allow for return of the excavated soil as backfill if the soil passed the evaluation listed above. After the 889 site is sufficiently cleared of equipment and concrete rubble, Geoprobe subsurface sampling will take place, and should any contamination be found, equipment will be onsite to remediate those soils.

Additionally, this approval to use the excavated soil as backfill applies only to the areas at the 889 Project where contamination is unlikely. A separate evaluation will be done on the portion of the subsurface where the sumps, ducts, and pipes are present.
